Build your own Tool Kit

A Tool Kit is a great item to add to your river trip gear. While you may not crack it open during every trip, these essentials can turn tricky backcountry programs into easy fixes. You should adapt this list based on your boat frame’s style and hardware.

- Stove repair kit
- Spare frame and oar parts
- Pipe clamps
- Spare buckles
- Spare tent stakes
- Valve wrench
- Spare valve
- Duct tape
- Bailing wire

- Frame tools
- Allen keys
- Adjustable wrench
- Hammer
- Flat and Philips head screwdrivers
- Channel locks

Get kids outside! Visit cfimoab.org/join-and-support to learn how you can create opportunities for kids to experience the magic of the river. Check out more river resources, insights, and history: cfimoab.org/coyotes-corner or follow @cfimoab.
